Giar LEBEN IM GARTEN dina

13 - 17 March 2024

STAND G20 A777

Growsolutions by A777

Energy green roofs with vertical PV for a more advantaged energy profile with **no peak shaving** at lunchtime combined with urban gardening for **zero km food production** and **biodiversity**. growsolutions.ch

Co-exhibitors under the umbrella of Growsolutions by A777

BLDVEG

1

Lightweight blue roof solution for low-loading roof capacity. en.bldveg.co.il

ZinCo

2

Leben auf dem Dach

Water retention build-up for rainwater storage on the roof for the **cooling effect** of the top level of the building. zinco.ch

Neptune Coatings

3

Very durable and easy-to-apply membranes, even for roof refurbishment, including blue and green roofs. neptunecoatings.com

REG.LAS
SISO

4

Innovative substructure system by SISO for PV and metal roofs with a vertical elevation including partial greening. reglas.energy

SolarEdge

5

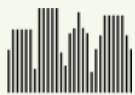

Innovative PV-equipment for a higher efficiency and productivity. solaredge.com

Retex

6

Innovative geotextile for enhanced rainwater management. retex.cz

Neofas
KLETTERMAX

7

Climbing solutions for the facade and with Mobilane **vertical green product MobiPanel** for outdoor use. neofas.ch/klettermax/

WepfAir

8

Small wind turbines of higher efficiency work at low wind speeds and are combined with the **vertical PV-installation**. wepfair.com

Together, we can make a difference. Join our climate change campaign and be part of the solution. Together, let's create a sustainable future for generations to come.
